HOBBIES

- Cooking
- Reading

PROFILE

Aspiring IT professional with a strong foundation in computer science and hands-on experience in new projects. Seeking an entry-level role to apply my problem-solving skills and grow within a dynamic tech environment.

WORK EXPERIENCE

Self-Employment

Family Business 2020-Present

- Managed day-to-day operations of a family-owned business, gaining experience in customer service, inventory control, or financial management.
- Leveraged strong organizational and problem-solving skills to manage the family business.

PROJECTS

E-Commerce Web Application Development

- Designed and implemented the front-end user interface using JavaScript, ensuring a responsive design for various devices.
- Developed the back-end RESTful API with Python to handle user authentication, product management, and order processing
- Integrated SQL for database management, implementing efficient data models and indexing strategies.
- Conducted unit and integration testing using Jest and Enzyme to ensure code quality and reliability.

Automated Food Ordering System

- Designed and implemented a responsive and intuitive user interface using HTML, CSS, and JavaScript.
- Created dynamic menu pages with real-time updates using RESTful APIs.
- Utilized local storage to retain user session data and cart information between page reloads.
- Developed serverless functions with AWS Lambda using Python to handle user requests, order processing, and data retrieval.
- Configured API Gateway to route HTTP requests to the appropriate Lambda functions securely.
